

Material Safety Statement

For Factor VIII (FVIII) Antigen Kit

Product Name: VisuLize™ Factor VIII (FVIII) Antigen Kit

Catalogue Number: FVIII-AG

Use of Product: This product is for *in vitro* diagnostic use.

The hazards identified with this product are those associated with the following kit components:

- Item 2: Calibrator Plasma
- Item 3: Control A Plasma
- Item 4: Control B Plasma
- Item 7: Detecting antibody
- Item 8: TMB substrate
- Item 9: Stop solution

Refer to attached Safety Data Sheets for Detecting Antibody Diluent (QAF0084), TMB Substrate (QAF0085 or QAF0340), Stop Solution (QAF0083) and Human Source Plasma (QAF0026) for more detailed safety information.

Though not all components are defined as hazardous, following standard laboratory practices when handling all kit components is advisable.

The above statements are provided for informational use only and are believed to be correct. Affinity Biologicals Inc. shall not in any event be liable for incidental, consequential, third party or special damages of any kind resulting from any handling, use or failure of the products or above information.
